ABOUT ME

A passionate recent college graduate with a degree in computer science. Eager to learn, approachable and a great team member. I had a couple of internships ranging from computer vision to building android mobile application on android studio. I'm very interested in Machine Learning and game development but willing to take on any project to build on my programming skills.

EDUCATION

BS Computer Science

AUG 2017 - MAY
2021

California State University, Northridge, Northridge, CA
